

Testimonial

I have used the services of Col Richards CRS (Geomatics) Pty Ltd as my surveyor for some years now and have found him to be the most thorough professional I have ever engaged.

He goes way outside the boundaries to make sure that every detail is correct and makes sure that all documentation is completed in such a fashion that there is never any reason for it to be rejected by the authorities.

His knowledge of planning regulations is extensive and he uses it to the clients' advantage.

I would have no hesitation in recommending his services to all clients looking for a truly professional result.
